ABSTRACT

Ninety nine theses were submitted in the Department of Mathematics, Sri Krishnadevaraya University during the years 1976-2011 and trend of Research Productivity, shows that a highest number (51) of theses were submitted during 2006-2011; 14 theses in between 1991-95, 13 theses in between 2001-05 and 11 theses in between 1996-2000. Out of 99 theses 28 were guided D R V Prasada Rao, 14 by D V Krishna and K Suvarna each, 11 by U Rajeswara Rao, 10 by R Siva Prasad was guided. The highest number (77) of theses submitted belonged to Applied Mathematics and as per sex ratio males dominated in this research productivity. The paper has highlighted qualitatively research made by the researchers of the Department of Mathematics at Sri Krishnadevaraya University during 1976-2011.
