ABSTRACT

India is welfare state, under welfare approach all round development weaker section is considered. Numerous theories, models, plans and programmes have been proposed by the thinkers, builders and administrators of our nation are dealing with social economic development of weaker section. The people belonging to weaker section have been covered under different welfare schemes related to their social, economic, medical, educational, political and cultural betterment. According to five years plans (2002-2007) is Rs 1968815 crore are total out lay envisaged . Recognizing that economic growth can not be the only objective of national plan has set monitor able target for few key indicators of human development in addition to 8 percent growth rate .These include reduction of poverty ratio by 5 percent points by 2007 ;by providing gain full employment to all.
