ABSTRACT

The paper analyses the publications output of Asian countries in Business Management as per the data based on SC Imago Journal and country ranking (SJR) during 1996-2010. It reports on current scenario of Business management research output in Asian countries, its growth and decline, its strong and weak subject areas of research, its collaborative profile and dynamics. The study also provides suggestions for improving the quantity and quality of management research and education.

KEYWORDS: *Management education, research output, collaboration.*
